

ARANTXA ORDOYO

Full Stack Developer

+34622563796 pro.arantxa.ordoyo@gmail.com Github LinkedIn Barcelona, España

PROFILE

Full Stack Developer with a dual degree in Web and Cross-Platform Application Development, specializing in React, JavaScript, Python, and Flask. Experience building complete web applications with OAuth 2.0 and JWT authentication, payment integration with Stripe, image management with Cloudinary, and relational databases. Backend knowledge with C#, ASP.NET, and Entity Framework.

PROJECTS

Playback

- 📅 2026 📍 Barcelona
- 🔗 <https://github.com/4GeeksAcademy/fs-127-Playback-AA>
- React · Flask · Python · PostgreSQL · JWT · OAuth 2.0 · Stripe
- I developed a full-stack marketplace for retro products with three distinct user roles: customer, seller, and administrator.
 - I implemented a complete e-commerce platform with a catalog, filters, persistent shopping cart, and Stripe payment integration.
 - I built a seller dashboard with sales statistics, stock management, and inventory alerts.
 - I integrated authentication with OAuth 2.0 (Google) and JWT, image management with Cloudinary, and email notifications.
 - I added Spanish/English internationalization, dark/light mode, and a responsive design.

City Planner

- 📅 2022 📍 Barcelona
- 🔗 <https://cityplanner.page.gd/>
- PHP · JavaScript · MySQL · HTML · CSS
- I developed a full-stack portal for searching and managing cultural events, festivals, and concerts.
 - I implemented a three-user role system with a CRUD event administration panel.

EXPERIENCE

Team Coordinator

- #### Hello Nails
- 📅 2020 - Presente 📍 Barcelona
- I coordinated and led a team of 8 people, managing daily operations and task distribution.
 - I managed stock control and inventory, ensuring product and material availability.
 - I handled and resolved customer issues in a high-demand, fast-paced environment.

Web Project Internship

- #### HeyPlanters
- 📅 2026 - 2026 📍 Remote
- I developed the web interface using React, Next.js, and TypeScript for a plant care application with navigation between sections (diagnostics, garden, map, and profile).
 - I implemented a chatbot with AI-powered conversational NPCs to advise users on plant diseases and care, with voice and image support using the Web Speech API.
 - I integrated an interactive map using an iframe and styled it with Tailwind CSS.

Web Development Internship

- #### Sigma Learning Center
- 📅 2020
- I developed web interfaces using JavaScript, jQuery, and Bootstrap, including UI prototyping in Figma.
 - I managed databases with MySQL to support web applications.

SKILLS

Frontend

React JavaScript TypeScript

HTML5 CSS3 Bootstrap

Tailwind Vite Figma

Backend

Python Flask PHP Node.js

C# ASP.NET Docker APIs REST

OAuth 2.0 JWT

Databases

MYSQL PostgreSQL SQLAlchemy

Entity Framework

Payments and integrations

Stripe Cloudinary i18n GeoApi

Version control

Git/GitHub

EDUCATION

Full Stack Developer

- #### 4Geeks Academy España
- 📅 2025 - 2026 📍 Barcelona (Remoto)

Course Figma

- #### Udemy
- 📅 2025 📍 Barcelona (Remoto)

Higher Technician in Web Application Development

- #### Linkia FP
- 📅 2023 📍 Barcelona (Remoto)

Higher Technician in Multiplatform Application Development

- #### Politécnics
- 📅 2017 - 2019 📍 Barcelona, España
